Efficient Deployment
& Management

T44W, a feature-rich Wi-Fi IP phone with a wide range of features, offers a user-friendly experience. Equipped with a large 2.8-inch color display with backlight, it supports 12 SIP lines and accommodates 5-way audio conferences. The T44W doesn't compromise on functionality, featuring HD audio, dual USB ports, built-in Bluetooth 4.2 and integrated 2.4GHz & 5GHz Wi-Fi. It's the perfect choice for enterprises seeking efficient, high-quality business communication solutions.

Wireless Experiences, Effortless Deployment

With the built-in Bluetooth 4.2 and the built-in dual band 2.4G/5G WiFi, the SIP-T44W IP Phone ensures you to keep up with the modern wireless technology. Enjoy faster, hassle-free deployment with reduced cabling for a more attractive and efficient workspace.

Superior HD Audio, Better Communication

T44W provides distraction-free communications with Yealink's industry-leading Acoustic Shield Technology. Moreover, by leveraging Yealink's Optima HD audio technology, Yealink's new T44W guarantees HD sound quality and a distortion-free communication experience.

Dual USB Ports, Strong Scalability

T44W equipped with dual USB ports, meaning the entire series allows users to connect two Bluetooth dongles, Wi-Fi dongles, EHS40 headset adapters, USB headsets or USB disks at the same time. With dual USB ports, the T44W flexibly adapts to various scenarios and demands.

Enhanced Security, Enjoy Peace of Mind

The T44W is shielded with the latest in security protocols, making your conversations more secure than ever. With TLS 1.3, you benefit from faster and more robust encryption, while WPA3 guards your network against emerging threats.

All in One Platform, Convenient Management

Proven reliability and integrations for Yealink Device Management Platform, installed the unified firmware, T4 series is simple to deploy and manage, which allows a significant reduction in the operation and maintenance cost.

Remote Diagnostics

Get the debug files with one click, which together with remote reset/reboot, reduces after-sales service costs and improves the efficiency

Call Statistics with Real-time Alarm

Graphical QoE and real-time alarm notification with rules

Timer Tasks with Flexibility

Schedule one-off or recurring tasks at pre-defined times and intervals

Unified Deployment & Management

Bulk configuration, and customization by region/department/model
