

ErisTerminal® SIP Deskset

VSP726

Do more business with the VSP726 deskset. This easy-to-install, cost-effective system features Power over Ethernet (PoE) support, dual Ethernet ports and auto-provisioning. Because it uses DECT 6.0 technology, the VSP726 makes it easier than ever to add an inexpensive cordless option. With the touch of a button, you can pair a handset and/or headset to take calls away from your desk. Plus, you'll save time and money with local call recording using the built-in micro SD card slot, which allows you to record and review calls—without a subscription to your service provider. Managing multiple calls has never been easier thanks to advanced call handling features and support for up to four SIP lines/accounts. Support for the G.722 wideband codec for HD Audio means you'll enjoy superior voice quality too.

VSP726 Key Features

Advanced call handling.

Impress customers with comprehensive call handling features that are compatible with hosted and open-source PBX platforms.*

Flexibility.

With support for up to four SIP lines/accounts, you can manage multiple calls with advanced call handling features.

Intuitive design.

You're in business with a user-friendly interface, large backlit display, navigational pad and three soft keys.

One-button call routing.

Program up to 12 dual-function feature keys for convenient access, including shared call appearances (SCA), busy lamp fields (BLF), quick dial and feature codes.

Full-duplex speakerphone.

Finally, a speakerphone that can keep up with your calls. Increase participation by allowing parties on both ends to speak and be heard—at the same time—for conversations that are more true to life.

HD voice quality.

With G.722 wideband codec support for HD audio, calls have never sounded so rich and life-like.

Cordless convenience.

Thanks to the built-in DECT 6.0 radio, you can pair a compatible VTech cordless headset and/or handset for hands-free mobility and super-clear sound quality.

Call recording with micro SD card slot.

Save calls right to your deskset using a micro SD card (sold separately) in the built-in port. Then enjoy free, easy access to recordings you can review later for missed details or quality assurance.

Dual Ethernet ports.

Do more with dual Ethernet ports. Connect your desktop computer or laptop to the phone—no need for extra cabling.

Power over Ethernet (PoE).

With PoE support, you can locate the phones anywhere that's convenient—no AC outlets or complicated wiring required.

Three-year warranty.

Enjoy the peace of mind that comes with an industry-leading, standard three-year warranty. VTech also provides advanced replacement on warranty claims using new, not refurbished products.

*Compatible with Broadsoft® and Asterisk-based platforms.
